Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS •Which crop should I grow in my soil. •I don't know which fertilizer or crop is best for my land •Crop failure is affecting my income	THINKS •I need better yield from my land •Soil nutrients affect crop production •Weather conditions matter for farming decisions Technology can help me choose better crops
PERSONA NAME: Small & Medium, Scale	
DOES •Grows crops based on traditional knowledge •Asks other farmers for suggestions •Uses experience instead of data Tries different crops every season	FEELS •Confused about crop selection •Worried about crop failure •Stressed about low yield Hopeful for better farming decisions using technology
